The farmers complain of a want of rain and say they never saw meadows so badly parched at this time of the year as at present. They say unless we get a good soaking rain soon in this section cattle will suffer for lack of pasturage.

The council Tuesday night passed a resolution to advertise for bids for the extension of the water works mains, proposals to be received for the pipe, and for digging and laying the same, separately. This is to give our own citizens a chance to put in a bid for digging.

Last Thursday evening the Congregational church voted to extend a call to Rev. W. S. Bugbee to become pastor of the church. It will be remembered that Mr. Bugbee spent two Sabbaths in Cheboygan, some weeks since and created a very favorable impression, both as pastor and socially.

The TRIBUNE office has always taken pride in doing work well and promptly on time. Of late the office has been so rushed with work that it has been difficult to get it out as promptly as desired. This week we have secured the services of E. H. Smyth and hereafter we hope to be able to keep up with the work.

The nomination of General Foraker by the Republicans of Ohio as their candidate for Governor does not seem to suit the average Democrat throughout the country. However we do not suppose it makes any difference to the Republicans of that state as their object was to suit their own party and not the Democracy.

A tramp made a call on Mrs. Nelson Burdo, on the east side Saturday afternoon and when she refused to comply with his requests, struck her in the face, knocking her down. He was arrested by the police, and examination set for Monday. Mrs. Burdo failed to appear against him and he was only given ten days in jail.

The subscribers to the 4th of July fund will confer a favor upon the committee by having the amount of their subscriptions ready when called upon. This work all falls upon a few and subscribers should not require them to make more than one call. Please bear this in mind and govern yourselves accordingly.

The ladies of the Congregational church have become patriotic and propose assisting in the celebration of the coming Fourth of July by giving an ice cream and strawberry festival. The place in which it will be held will be announced next week.

Children's day will be observed at the M. E. Church next Sunday evening. A fine programme has been prepared and the occasion will be an interesting one. A collection will be taken up for the benefit of the Sunday school library and should meet with a liberal contribution.

The Northwestern Hospital will be ready to receive patients next week. Great improvements have been made in the property. In addition to the changes made in the building, a nice fence has been put up in front, and a sewer laid to the river, securing perfect drainage. The improvements will be finished this week and the first of next week the furniture will be put in.

Fierce fires were raging in the woods in the neighborhood of Thomas Richardson's farm last Friday and it was only by the greatest efforts that some buildings were saved. Mr. Hurst's house and barn caught fire a number of times and several others were in great danger. One woman while her husband was off assisting his neighbors discovered their roof on fire and she got up on it and for two hours battled to save her home and succeeded.

That was a very quiet election held last Monday when the question of appropriating \$7,000 for the extension of the water works mains was submitted to a vote of the people. There was only 112 votes cast, 92 for and 20 against. The singular fact of the election is that some of the residents on the east side, the portion which is to receive the greatest benefit from the appropriation, both voted and worked against the project. But it carried by a good majority and we are glad of it.

The graded school closes its year next week. Owing to the fact that the Opera House is engaged for the entire week, the usual closing exercises of the school will be deferred until Monday evening following, when the graduating class will read essays and an interesting programme will be presented. Tuesday evening following the exercises at the hall the "B" class will tender the graduating class and a few invited guests a reception at the elegant residence of Mr. and Mrs. S. LeGault Sr., on the east side.

Ex-Congressman Spaulding, now special agent of the Treasury department passed up on the City of Alpena Saturday afternoon on his way to Marquette.

Quite a number of our citizens took in Coles circus at St. Ignace last Monday. The Messenger left promptly at 7 a. m., and several who were just in sight at that hour got left by being a little too late.

C. R. Stuart, editor of the Chippewa County Democrat kindly appoints Editor Forsyth Deputy Collector of Customs at this port without waiting to hear from Washington. Mr. Forsyth has not yet assumed the duties of the office.

Captain Joseph Bissette will have command of the Mary, on the inland route this season. He commenced fitting the boat out Monday. The Mary will run from Mackinac Island to the head of Mullet lake, the same as last season.

There is no church in town that has appealed to the public fewer times than the Baptist church, and now our citizens have an opportunity to give them a substantial benefit by attending the concert, at the Opera House this evening. The famous Tennesseans will give one of their choicest programmes.

The NORTHERN TRIBUNE, published by Mr. Ramsay, at Cheboygan, has improved of late under the fostering care of its present owner. The leading newspapers of northern Michigan will compare favorably with the best of their southern neighbors.—Clinton and Shiawassee Union.

L. P. Trempe, the genial and gentlemanly clerk of the St. Marie was not feeling very comfortably Tuesday evening. A number of Job's comforters on his back did not have a tendency to promote his happiness and he concluded he would lay off for a trip on his return to the "Soo."

From the statements of patents issued, published elsewhere, it will be seen that C. R. Smith and J. B. Adams have been allowed a patent on a clamp. The invention is for clamping sash and doors and has been in use in the planing mill for sometime and has attracted the attention of prominent sash and door manufacturers in Chicago and other manufacturing centers, and is conceded to be the best clamp for the purpose that is in use.

Dr. A. M. Gerow has a cranberry marsh located about five miles from Cheboygan. He has one acre planted that is coming on finely, the plants being in blossom and giving indications of promising results. Last week he sent out fifty-three bags, about one ton, of plants, sufficient to put in four more acres. It will not be many years before this will become a very important factor in the industries of this section. Wm. Elliott has several acres of plants in, below Duncan City and all indicate very promising results.

Last week our cotemporary told a cock and bull story about Hop Sin, the Chinese laundry man who hung out his shingle in Cheboygan. It intimated that there was suspicion of the gentleman from the flowery kingdom having been foully dealt with. It is needless to say that it was only an imaginary story and without the least foundation, the Mongolian having left town in broad daylight, shipping his stuff all but the sign, by boat to Alpena. Outside papers are copying the item and it certainly adds nothing to the good name of Cheboygan, but that is his style.

More new prints and zephyrginghams at W. & A. McArthur's.

H. A. Blake lost his pocket book last Monday and wants it bad. It contained no money, but in it were papers of value to him.

Order your job work at the TRIBUNE steam printing office. Unequalled facilities for the execution of all kinds of printing.

Give the Baptist church a benefit this evening by attending the concert at the Opera House to be given by the famous Tennesseans.

The graduating class of the graded school this year is composed of Misses Zaida Adams, Anna Bell, Kate Hamilton and Dora Ramsay.

Henry Rindskopf was seriously ill for several days but we are glad to say is recovering and had improved so far as to be able to take his departure on the City of Alpena Wednesday afternoon for Detroit. We hope for his speedy return fully restored to health.

Children's Day was observed last Sunday morning at the Baptist church and at the Congregational church in the evening. The exercises at the former church in the morning were of an interesting character and attracted a good audience. In the evening the Congregational church was crowded and a very interesting programme was presented by the children.

Remember the concert this evening by Donavin's celebrated Tennesseans. This is the genuine troupe and are noted for their fine music. Our citizens may be assured of a most enjoyable entertainment, and as they appear under the auspices of the Baptist church they should have a crowded house as the entertainment is alone worth the price of admission, to say nothing of the benefit to be derived by the church.

The Gaylord City Cornet Band have secured the Opera House for Saturday evening, July 4th, and will give a grand concert on that evening. The Band has given several entertainments at home and in surrounding towns and have been very highly complimented. They promise a fine programme on this occasion and we trust they will receive an ovation from our people as they have been very liberal in their terms for furnishing the music during the day. The fireworks will not conflict with the concert as they will immediately precede and follow it from the belfry of the Opera House.

Charles H. Nuite returned home Tuesday evening on the Messenger from the Spanish river region, Ontario, where he had been for some time looking pine land for Burton Brothers, of Canada. He reports an immense amount of timber in that section, magnificent streams for running logs and says that one jam of logs was run down 100 miles in four days. The land he was examining was located on Sable river, which empties into the Spanish, and he says that 100 miles up the river it is as large as the Cheboygan river at this point and has a very rapid current. The timber, however, he says is not equal in quality to that of the Cheboygan region.

For sometime past parties have been in correspondence with Mr. and Mrs. Louis Wiegand, Cheboygan's small couple and general favorites with all, trying to induce them to re-appear upon the stage but "Little Louis" having recently embarked in business and was succeeding in securing a promising trade they were loth to give it up. Recently however they received such a favorable proposition as to induce them to accept and sometime next month they expect to start out with a company the most of the members of which are old acquaintances. The little folks will have the best wishes of all for their success and hosts of friends will regret that they are going to leave Cheboygan, even temporarily.

St. Mary's Commencement.

The Commencement exercises of St. Mary's parochial school will take place Thursday and Friday evenings of next week at the school building on the east side. A most interesting programme is in preparation, consisting of piano solos, duets and trios, vocal solos, choruses and class songs, recitations, dialogues and drama. Those who attended the exercises of this school last year need not be told what may be expected, for they know from experience that the exercises will be of the most entertaining character. The sisters are accomplishing a good work and take great pride in the attainments of their pupils. There should be a large attendance both evenings.
